Basic Coastal Navigation

An 8-week course in the basics of coastal navigation designed to acquaint you with the tools and skills required to be successful – great for novices or a refresher course for experienced (rusty) sailors. Consisting of navigation theory, plotting and course determination, dead reckoning, (time/speed/distance), compass use, deviation, error & adjustment, bearings, fixes & running fixes, tides & tidal current calculation, set & drift. This course has a strong emphasis on practical skills and students should expect some homework.
