

July 5th, 2021

The Honorable Lisa Bartlett
Fifth District Supervisor
Orange County Board of Supervisors
333 W. Santa Ana Blvd.
Santa Ana, CA 92701

Re: Your letter to Dana Point Boaters Association dated July 1st, 2021

Dear Supervisor Bartlett,

We appreciate your prompt response to our letter of June 25th regarding the slip rate increase in Dana Point Marina effective October 1st, 2021 and have several additional questions.

In your response, you stated, "The rates being implemented by DPHP are not determined by the County nor the Board of Supervisors and do not appear to violate the Tidelands Grant." The presumed support of this statement was a letter written by Joe Ueberroth of Bellwether Financial.

Will you explain how his letter draws you to make the conclusion mentioned above?

Secondly, will you or the County supply Dana Point Boaters Association with the data Bellwether provided the County depicting the exact calculations and marinas used in determining slip averages in Orange County? Kindly confirm you will provide the requested documentation. If not, Mr. Frank Kim, CEO of Orange County, is copied on this letter and we can contact him directly.

Lastly, if neither the County nor the Board of Supervisors has oversight over rate increases, who does?

We look forward to another prompt response. Also attached are additional comments from concerned boaters received after our last letter to you. The names and contact information have been redacted.

Sincerely,

Anne Eubanks
DPBA President
