Newport Beach, CA 92660

Dear Mr. Ueberroth and California Coastal Commission Staff:

We, at the Orange Coast College School of Sailing and Seamanship, are excited to partner with Dana Point Harbor Partners to provide a hands-on, multi-day sailing experience for up to 100 underserved youth annually. We have an established program that we believe will work very well to introduce sailing to previously underrepresented communities throughout Orange County in order to meet Dana Point Harbor Partners' responsibilities to the California Coastal Commission associated with the redevelopment of Dana Point Harbor.

In our discussions with Dana Point Harbor Partners, we expect the scholarship program to begin near or around January, 2022 and we will collaborate with Dana Point Harbor Partners to co-market these opportunities.

As part of the sailing program students will complete course evaluations and the results will be provided to Dana Point Harbor Partners annually for review of the qualitative impacts of the program and to aid in refining and improving the program.

In addition, we will track costs and participation to provide a quantitative annual review and we will coordinate the mechanics necessary for our funding needs directly with Dana Point Harbor Partners.

Regards,

Mette Segerblom
Sailing Program Coord.
